Weekly Individual Report Unit 4 Week 13

Austin Hall

UFID: 90207943

Time Dedicated to the Project

I spent about 8 hours on the project this week.

Contribution to Project Development Process

The project went through a major code change so I spent this week trying to get it to run locally, but that didn't take too much time. The project is in a good spot so I have switched my focus to the presentation and documentation.

Demonstration of Applied Knowledge

For the next two weeks, I will be reviewing our whole project and preparing for the presentation. This involves going through all the code to make sure the documentation is correct.

Reflection

I feel really good about where our project is and I'm excited to be wrapping this up. Working on the presentation really feels like we are in the home stretch.
